EDUCATION

2022 – Present	UIT UNIVERSITY	Karachi, PK
<i>Bachelor of Science (BS), Major in Software Engineering.</i>		
JUNE 2025 – Present	TECHMAZONE	Karachi, PK
<i>Project based learning in Artificial Intelligence and Machine Learning</i>		

PROJECTS:

- NLP Based Movie Recommendation System**
Project Link: <https://github.com/syeubaid/Movie-Recommendation-System>

Movie Recommendation System is an NLP based system that takes a movie name as an input and gives top 10 movies from the dataset having the highest similarity score with the input movie.

- AI Based Exam Generator**
Project Link: <https://github.com/syeubaid/AI-Based-Exam-Generator->

The systems basically generate quizzes, assignments, mid term and final exam papers just by selecting drop down Options. The system targets non-technical teachers who cannot write an effective prompt to generate an examination paper this system allows the teachers to select drop down options and generate a prompt through it and then generate the examination paper.

ACHIEVEMENTS

Core AI/ ML Team Member – GDGoC-UITU (JULY 2025 – Present)
Contributing to hands-on AI/ML initiatives including data preprocessing, model training, and experimentation. Participating in research discussions, workshops, and community learning activities.

Team Member – DICE SOCIETY, UITU CHAPTER (Nov 2024 – Present)
Contributing to the planning and execution of technical and non-technical events while supporting coordination and communication activities. Actively participating in society initiatives focused on skill development, peer learning, and student collaboration.

EXPERIENCE

JUN 2024 – AUG 2024 Fire Protection Association of Pakistan

Completed internship as a software developer

ADDITIONAL

- **Technical Skills:** Proficient in machine learning, currently learning deep learning learning, HTML, CSS, Java, Python, Data Visualization, Data Cleaning, Data Engineer, MySQL Database, GitHub.
- **Soft Skills:** Problem-solver, Communication, Leadership, working in collaborative environment, lifelong learner.
- **Tools:** VsCode Code editor, Microsoft Office, GitHub, Jupyter Notebook, Postman, MySQL
- **Interest In:** App Development, Data Services, Data Engineer, Data Analyst, Machine Learning, Computer Networking, Web Development
