

Principles of Management and Digital Image Processing Quiz

Exam Type: Quiz

Total Marks: 10

Time Allowed: 60 minutes

Section A - Multiple Choice Questions (MCQs)

Total Questions: 10

Marks per MCQ: 1

Section Total: 10 marks

1. What is the primary goal of Human Resource Management (HRM)?

 - B) Promoting an existing employee from within the organization
 - C) Outsourcing HR functions to a third-party provider
 - D) Conducting a job analysis to **identify** key skills and abilities
3. What is the Lempel Ziv coding algorithm used for in digital image processing?
 - A) Image enhancement
 - B) Image compression
 - C) Image restoration
 - D) Image segmentation
4. Which of the following is a characteristic of a high-performing team?
 - A) Low levels of conflict and communication
 - B) High levels of conflict and low levels of communication
 - C) High levels of conflict and high levels of communication
 - D) Low levels of conflict and high levels of communication
5. What is the process of attracting qualified persons to apply for jobs that are open?
 - A) Recruiting
 - B) Selecting
 - C) Hiring
 - D) Promoting

6. Which of the following is an example of a string that has not been marked off before in the Lempel Ziv coding algorithm?

- A) A sequence of characters that has been seen before
- B) A sequence of characters that has not been seen before
- C) A sequence of characters that is currently being processed
- D) A sequence of characters that is not relevant to the algorithm

7. What is the set of organizational activities directed at attracting, developing, and maintaining an effective workforce?

- A) Human Resource Management (HRM)
- B) Strategic Management
- C) Operational Management
